Orchids in Bloom every month of the year

"ALL MONTHS" GROUP

SPECIAL OFFER #AM12

We will select 12 exquisite Cattleya hybrids for you, each a different variety, so you will have plants in bloom the year around. You will receive regal purples, exquisite rare whites, exotic white with purple lips, and even a lovely striking golden bronze.

Truly, this is the group with which to start your Orchid Collection. All plants are strong, flowering size, and well established. One will burst into bloom within several weeks after you receive it. The balance will give you a thrilling procession of bloom throughout the four seasons.

Here is what you get — 12 flowering size plants, all different!

OUR SELECTION OF 12 LARGE ADULT BLOOMING SIZE PLANTS, SENT POSTPAID TO YOUR DOOR FOR ONLY \$97.50

A \$117.00 value. You save more than \$22.00 over the individual plant prices!

The Talk of the Orchid World

The New Pink Miniature Cymbidium

FLIRTATION

is for the Young in Heart!

Regardless of your age, if you like something new, different, beautiful, and easy to grow.

THIS IS FOR YOU!

Yes, this new, gay, exciting pink Cymbidium is for those who want something different and beautiful. Imagine a plant in full bloom with scores of pink flowers on erect spikes, yet still only about eighteen inches high. Use the whole plant to decorate your home when in bloom, or use cut sprays. Colors range from raspberry pink to almost white. Occasionally there's even a yellow. Plants are easy to flower; early blooming, too! Some start to bloom as early as Thanksgiving though we have plants in bloom from early fall through May and June. They flower under warmer conditions than regular Cymbidiums, too.

1394 FLIRTATION (*Zebra x pumilum*)

These come in shades of pink from very light to dark raspberry. We offer flowering size plants our selection from 3-6 bulbs each at..... \$12.50 As no two come exactly the same color, why not order 2 for only \$22.50! Save \$2.50.

Special Home Orchid Growers List 41

S-86 LC. MARIAN ANDREWS

Different!

— A GREENISH YELLOW CATTLEYA
WITH ROSE LIP!

LC. ANN FOLLIS (C granulosa x Lc. Ethel Merman). Here is an exciting novelty cross that everyone loves. We sell these as fast as they come into flower. Flowers 5" to 6" across, satiny greenish yellow to light brownish yellow. Handsome rose colored spade lips in most cases. Strong, free blooming. Season Spring and early Summer. 4" to flower within 12 months 10.00
4½"-5" Flowering Size 12.75

(Below) LC. ANN FOLLIS

We are happy to present this special listing of
"VIGOR TESTED-QUALITY PROVEN" ORCHIDS

The plants in this listing have been specially selected from our ranges of over 2 acres in orchids. They have been found to be sturdy growers, and flower well under a wide range of conditions. You will find a wide range of colors and types. They all have one thing in common, however, in that they will all grow happily together under the same approximate conditions. Regardless of how many plants you buy from this listing, they will all grow well together.

All plants offered are F.O.B. San Gabriel, except where specifically offered as postpaid. Ordering is easily done. Fill out accompanying order blank or order envelope, enclose your check, cash must accompany order unless credit established. (Write us about our credit plan.) We will promptly acknowledge your order and immediately ship either parcel post or Railway Express collect.

Important. On orders where you have specified certain varieties may we substitute plants of equal or greater value in the same general type and quality for any variety that is sold out? Quite often if we are permitted to make substitution, where advisable or necessary. We can then send stock that is of better value and more to the customer's wishes than stock specifically ordered. We guarantee satisfaction on all orders. We have a fine illustrated 24-page Cultural booklet which we send free with your order for the asking.

All plants offered are sturdy, well established flowering size. As there are thousands of varieties of Cattleyas, you can purchase plants to flower at any time of the year. Cypripediums (Lady Slipper Orchids) flower throughout the winter. The Vandas flower mostly in Summer and Fall.

The varieties listed here are especially suited to the grower who may wish his hobby to pay for itself from the flowers which can be sold to florists. A large percentage of our sales each year are to those who raise orchids for the market. You also can raise orchids for pleasure and profit.

Brilliant, Colorful Cattleyas . . .

the Queen of All Orchids

Richly colored exhibition purple for
Fall and Winter.10.00, 12.50

#S-86 LC. MARIAN ANDREWS

(*Lc. Gitche Manitou x C. Amabilis*)

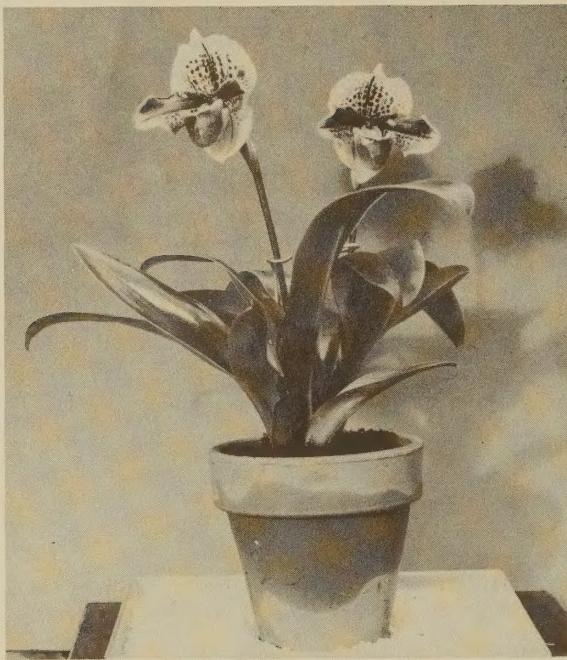

Handsome exhibition purple. Variable as to season, but many
throughout Winter and Spring12.00, 15.00

C. TETHYS

(*C. Ardentissima, 'Colossal' x C. Annie J. Lines*)

Plants offered here are of the original strain which is unsur-
passed for a uniformly dark Cattleya. Attempts have been made
to repeat this cross, without the high success of the
original.15.00, 20.00

#213 ARDENTISSIMA (<i>C. Fabia</i> , 'Fire Fall' x <i>C. Peetersii</i>) From dark to very dark reddish purple. Fine large flowers on strong stems. Season Fall.	10.00, 15.00
#125 LC. CELESTE (<i>Lc. Albula</i> x <i>C. Mossiae</i> , <i>Reineckiana</i>) A lovely white with solid purple lip. Season Winter and Spring.	10.00, 12.50
#126 LC. SARAH CUNNINGHAM (<i>Lc. Albula</i> x <i>C. Mrs. F. Knollys alba</i>) White with solid purple lip for Spring and Summer. A real sparkler.	10.00, 12.50
#35 LC. SPINDRIFT <i>C. Ville de Liege alba</i> x <i>C. Brussels alba</i>) A large free flowering white with purple lip for August and September, when so many weddings are held.	10.00, 12.50
#230 (<i>C. Labiata</i> , 'Roeblingiana' x <i>Lc. Albula</i>) A white with solid purple lip for October through December.	10.00, 12.50
C. IRENE, 'PURITY' (<i>C. Mossiae</i> 'Wageneri' x <i>C. Suzanne Hye</i>) A specially selected form of this now rare Spring and early Summer white Cattleya.	12.50, 15.00
#166 C. SYROS ALBA (<i>C. Enid alba</i> x <i>C. Labiata alba</i>) Very free blooming white with purple lip for Fall.	8.00, 11.00
C. Bow Bells x <i>Brasavola digbyano</i> The world's most famous white Cattleya crossed with this famous fringed lip species. Flowers light rose, lips heavily fringed.	10.00, 12.50, 15.00
C. CORFLAMBO (<i>C. Jicarillo</i> x <i>C. Ardentissima</i>) Companion cross to C. Tethys. Flowers very dark, free blooming.	10.00, 12.50
#R612 C. CHICKAMAUGA (<i>C. Ardmore</i> x <i>C. Thetis</i>) Spring months are hard to fill with a good purple. This is one of the best for this season.	10.00, 12.50
#R611 C. EDDIE RICKENBACKER (<i>C. Mossiae</i> x <i>C. Thetis</i>) This and the above cross are two of the best we have seen for spring bloom purples.	10.00, 12.50
#S-27 C. MOSSIAE, 'WAGENERI' Striking rare white form of this species. Compact growing, free blooming for May - June.	10.00, 12.50, 15.00, 17.50
#U-12 C. MEM. W. A. WAY (<i>C. Eucharis</i> x <i>Edithiae</i>) Free blooming, heavy producing white for March - April.	9.00, 11.00
#241 C. MARGARET STEWART (<i>C. Dorothy Mackaill</i> x <i>C. Loddigesii</i> , 'Stanley's' FCC/RHS) A must on the white list. Sprays bear from two to six 5" waxy white flowers. Flowers two and three times a year!	10.00, 12.50, 15.00
LC. NEHAM (<i>C. Nebo</i> x <i>Lc. Joseph Hampton</i>) A superb, richly colored purple for November, December, January.	12.50, 15.00
#S-70 LC. FLYING CLOUD (<i>C. Mrs. F. Knollys alba</i> x <i>Lc. Winema</i>) Handsome large white with purple lip flowers. Winter and Spring. Sensational.	12.50, 15.00
#3919 C. ROSE ANDRADE (<i>C. Bebe White</i> x <i>C. Edithiae</i>)	
#3921 C. MOUNT SHASTA (<i>C. Bebe White</i> x <i>C. Estelle</i>)	
#3922 C. WHITE SAIL (<i>C. Bebe White</i> x <i>C. Olive Pierson</i>) The above three all bred from the famous white, <i>C. Bebe White</i> , are noted for the whiteness of their flowers, with little lip coloring. We group them here because of their similarity. (See illustration.)	12.50, 15.00
LC. TEXAS (<i>Lc. Conquistador</i> x <i>C. Fabianid</i>) Spectacular large purple. Strong growing, free blooming. Season Fall.	10.00, 12.00
C. ROEHRSIANA (<i>C. Hardyana</i> x <i>C. Mendelii</i>) Desirable purple for December, January. Flowers well for us for December.	10.00, 12.00
LC. INDRA (<i>Lc. Integrity</i> x <i>C. Prospector</i>) Strong growing, richly colored purple for Winter. Many with rich yellow eyes.	12.50
C. BANDIT (<i>C. Nebo</i> x <i>C. Tityus</i>) Free blooming, richly colored. Winter and Spring purple. Excellent producer.	10.00
C. SERENITY (<i>C. Prospector</i> x <i>C. Santa Monica</i>) Handsome Winter bloomer. Flowers light purple with darker lip.	10.00
BLC. MELROSE (<i>Blc. Alfred Mollet</i> x <i>Lc. Mrs. T. Ward</i>) Handsome Brasso of rich coloring, lip moderately fringed. 10.00	
C. LABI-ROYAL (<i>C. Labiata</i> x <i>C. Mount Royal</i>) Shapely, richly colored purple. Season late Fall.	10.00, 12.00
#S-24 LC. RAINBOW BRIDGE (<i>Lc. Integrity</i> x <i>Ardentissima</i> , 'Blueblood') Large, showy dark exhibition flowers. Fall and early Winter.	12.00, 15.00
LC. EDITH WILKIE (<i>C. Dinah AM/RHS</i> x <i>Lc. Mrs. Harold Lloyd</i>) Lovely free blooming purple for Summer through Fall. Rich dark lips contrast with lighter sepals and petals. You'll love it.	10.00, 12.00
(Lc. Cavalese x C. Tityus) Rich, pearly purple with the darker lips. Late Summer.	10.00, 12.00
BC. BILEE (<i>C. bicolor</i> x <i>Bc. Leemanae</i>) A novelty cross. Bears 4" to 6" flowers from light yellow through greenish yellow to coffee colors. Lips attractive rose without side lobes.	10.00, 12.00, 15.00
BC. MARS (<i>Bc. Leemanae</i> x <i>C. Maggie Raphael alba</i>) Get this if you like the unusual. Handsome large yellow flowers with richer yellow fringed lips. Fragrant.	12.50, 15.00
LC. PLYMOUTH (<i>Lc. Ruth</i> x <i>C. King George</i>) Handsome yellow with dark purple lip. Season Summer.	12.50, 15.00
#U66 BLC. LYDA TAYLOR (<i>Blc. Montecito</i> x <i>C. Nebo</i>) Crisp looking heavy textured, tailored purple for Christmas. Lip especially dark purple.	10.00, 12.00, 15.00
LC. CARL SWOPE (<i>Lc. Hilary FCC/RHS</i> x <i>C. Enid</i>) Very large exhibition purple, many with rich yellow eyes in lip. Season Fall, Winter and Spring.	10.00, 12.00

Cypripediums are among the loveliest and easiest of all orchids to grow. A moderately sunshiny South, East or West window sill with a temperature range comfortable to humans is all they require. If you want to give them the very best treatment, of course, they will thank you generously if you grow them in a greenhouse.

Mature plants to flower November-December, January-February, of named hybrids, postpaid anywhere in the United States, \$9.75. Plants shipped via Railway Express or parcel post depending on time of year and distance. Our

Selection as to Variety.

You may specify either rich mahogany spotted type, yellow shades, brown or reddish tones.

POSTPAID \$9.75 (Values from 10.00 to 15.00)
With Cultural Booklet

STEWART'S TRUE FIR BARK

Potting Mix

FOR ALL ORCHIDS

NOW AVAILABLE
FOR EVERYONE, EVERYWHERE

From true fir trees grown in California's cool high Sierras. Here is the wonder mix for orchids. Gives you top results with so much less effort and cost. STEWART'S TRUE FIR BARK MIX.

1. Gives best results.
2. Easy to use - pour it in the pot; firm it down with fingers or stick, that is all!
3. Costs less.
4. Easy to water - much easier than Osmunda.
5. Easy to feed. See our Cattleya cultural booklet C-1 for feeding instructions.

Double screened. Once to remove excessively large pieces; second to remove too fine particles.
pH adjusted. Not too acid, not too alkaline.

NITROGEN. We add a safe but ample supply of nitrogen. Will not interfere with feeding program, however.

Trace elements are added.

Chelates. Modern chemistry has given us compounds that hold iron in a form usable to plants.

Please specify whether you wish the screened, which we recommend for general use, or unscreened, which is generally used for seedlings and contains all fractions of the bark.

IMPORTANT

To save on shipping we suggest a minimum 2 bags on all orders to be shipped. We ship motor freight collect, unless instructed otherwise.

How much can I pot with one bag of fir mix? One 2 cu. ft. bag of fir mix will pot approximately 250 3" pots, 90 4" pots, 50 5" pots, 35 6" pots, 20 7" pots.

Large 2 cubic foot bag	\$3.00
5 - 9 bags, each	2.70
10 - 15 bags, each	2.55

**Here's the Hobby Fir Bark Box
That Most Beginners Order**

We have a special package of prepared Fir Bark that contains enough bark to pot from 6 to 12 mature plants (5" - 6" pots), which we will deliver POST-PAID TO YOUR DOOR anywhere in the continental UNITED STATES for only \$3.95. Of course this will take care of up to double the above number of plants in smaller pots. On larger potting requirements, we suggest the regular 2 cubic foot bags which we send motor freight collect.

Orthocide Garden Fungicide with 50% Captan

For various fungus and rot conditions.
Very effective 8 oz. 1.39, 1 lb. 2.19

Cooke's "Slug N Snail"

A very effective powder that attracts and kills slugs and snails 8 oz. .75, Economy size 2½ lb. 2.79

White Parade Group #WP1

Imagine 4 white orchids, one to bloom every season. Some will even flower with 2 or 3 sprays in one year. All four blooming size plants to flower in their coming season for only \$34.75 POSTPAID to your door. Our selection.

C. MT. SHASTA

EXOTIC

Swan Orchids

(*Cycnoches
chlorochilon*)
